Technical drawing of a wall section showing a precast concrete slab (Arrivée prétraitements) with dimensions. The slab has a width of 0.80m and a height of 0.50m. The wall has a thickness of 0.12m. The slab is embedded in the wall by 1.20m. The total height of the wall section is 3.50m, with a clear height of 3.00m. A vertical dashed line indicates the centerline of the wall.

Technical drawing of a biogas digester (digesteur) showing a cross-section. The drawing includes dimensions and labels for various components.

**Dimensions:**

- Overall width: 10.80
- Internal width: 10.10
- Height of the main tank: 3.00
- Height of the platform: 5.45
- Radius of the central turbine: Rd:1.70
- Height of the platform to the center of the turbine: NL4.70
- Height of the platform to the top of the tank: NL2.50
- Height of the small paddle agitator: 0.60

**Labels:**

- Turbine d'aération (Aeration turbine)
- Agitateur petites pales (Small paddle agitator)
- Potence (Overhead crane)
- Ø (Diameter symbol)
- Vers déga (Towards gas outlet)

A section line 'A-A' is indicated on the left side of the drawing.

Technical drawing of a mechanical part. The part is shown in a side view with a section line A-A. The dimensions are as follows:

- Overall width: 5.20
- Overall height: 3.50
- Height of the upper section: 3.00
- Height of the lower section: 1.00
- Radius of the lower section: R25
